

The Who Am I? Questionnaire

Greetings! The purpose of this questionnaire is for me to learn a bit about you as a person, an individual, and a new student in my courses. Many of the questions on here are very personal. **You do not have to answer anything you do not want to.** Answer what you're comfortable answering and simply leave anything else blank. Turn the questionnaire in to me at the **second class session**. Your responses will be kept **completely confidential** and are meant for **my eyes only**. Some of the questions I ask you may also appear on surveys you will take as a University Studies student. Those surveys are used to inform the administration about the University Studies program and population. This questionnaire serves to help me, as your professor, to understand your personal needs and work with you individually. I am tolerant, accepting, and nonjudgmental of all religious, political, sexual, and moral practices, beliefs, and perspectives. Please be assured that I will value your responses and treat them with respect and trust. Remember, if there is any question you do not want to answer, simply skip it. Although I do require that you fill in as much of this questionnaire as you are comfortable with, **your grade is not affected at all by your responses, or lack thereof**, to any questions. Again, your responses will help me tremendously in making sure you have the best learning experience possible. If you have any questions at all, please do not hesitate to contact me or your mentor. Please feel free to write on the back or attach additional pages if you need more room for any answer(s). Note: Even if you have already taken this questionnaire in another of my classes, please take the time to redo it here (your answers may have changed!). Thanks.

Thank you in advance for your assistance and participation in this project!
